

New Jersey Motor Vehicle Commission

P.O. Box 680
Trenton, New Jersey 08666-0680

STATE OF NEW JERSEY

Chris Christie
Governor

Kim Guadagno
Lt. Governor

Raymond P. Martinez
Chairman and Chief Administrator

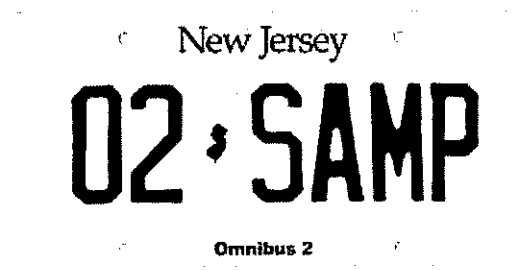

Starting July 1, 2014, the New Jersey Motor Vehicle Commission will be implementing the "Passenger Vehicle Transportation (PVT) Initiative". This initiative is part of the State of New Jersey's effort to become more business friendly by providing a clearer picture of its work processes and to streamline government to work for you.

The PVT Initiative's primary mission is to plate all passenger carrying vehicles with the appropriate license plate. Your organization utilizes buses or small vans to transport your clients or customer to, from and within your business location as part of your business. Transportation is not necessarily your primary function but is a service you provide.

These vehicles have been often times improperly plated with passenger, commercial, not for profit or governmental, etc., plates. This has been very confusing for law enforcement and the general public. This initiative aims to reduce the confusion by creating a plate to identify these vehicles more clearly. These vehicles will be identified as Omnibus 2 Vehicles.

Omnibus 2 Vehicles are operated by a company or individual that provides passenger transportation to a target audience or market that is not in competition with a publicly regulated transit route or does not collect fares from the general public. This includes vehicles that are considered traditional PVT vehicles such as taxicabs, limousines, commercial buses and school buses. Examples of Omnibus 2 Vehicles are medical livery, adult daycare bus, adult community transport, car rental transport, collegiate transport, hotel complimentary transport, recreational transport (outfitters), day labor transport, and other non traditional PVT Vehicles.

See the examples below:

New Jersey is an Equal Opportunity Employer

To register your vehicle as an Omnibus 2 vehicle, you must obtain a Certificate of Public Convenience and Necessity (CPCN) for an Omnibus 2. To obtain a CPCN for an Omnibus 2 vehicle, you must apply to the MVC Omnibus 2 Unit by mail. Their phone number is 609-633-9474. You will be required to fill out a short form which asks for the name of the applicant, address, representative agent, the type of service being provided and a list of the equipment (vehicles) being used. In addition, there is a \$ 25 fee for processing. This is a one time fee for all of your vehicles (does not include vehicle registration). You will receive in the mail, approximately two (2) weeks after your application, the CPCN Certificate, which will contain the information provided on the form except for the list of equipment and the MVC2 number. Once you have received this certificate, present it at a motor vehicle agency along with registration form BA49 to register your vehicle. **All renewals and initial registrations will be required to have a CPCN and change over to the new Omnibus 2 plates as of June 30, 2015.**

Omnibus 2 Vehicles will be required to be inspected on an annual basis at State Inspection Station or licensed Private Inspection Facility for both safety and emissions tests at the time the current sticker expires or from the initial title date.

For further information about the PVT Initiative, you can either pick up a "PVT and You" Brochure at your local motor vehicle agency or download it off the MVC Webpage at www.njmvc.gov/PVTandYou or call the Bus Unit Unit at 609-633-9473.
